REAL-TIME GLUCOSE MONITORING:
FOR CONFIDENT, CALM, AND ACTIVE LIVING

CONTINUOUS GLUCOSE MONITORING SYSTEM

//2026

USER PAIN POINTS

FRAGMENTED DATA

Conventional glucose meters show only separate readings, so you don't see the full picture.

OCCASIONAL MEASUREMENTS

Most people don't check their glucose levels as frequently as needed — this undermines control.

HUMAN FACTOR

Forgetting to check, painful fingersticks, and the grind of routine lead to errors and risks.

NO FORECASTING

Traditional monitoring cannot catch dangerous changes early enough to prevent hypo- and hyperglycemia.

CGM Flystat SOLUTION

CGM Flystat takes glucose control to a new level

The system operates automatically and discreetly:

- captures data 24/7;
- shows glucose levels in real time;
- alerts you to risks;
- helps you act beforehand, not afterwards.

CGM Flystat integrates easily into your life with no pain, no extra steps, no complicated setup.

KEY FEATURES

Everything you need for control in a single interface:

SMART ALERTS AND REMINDERS

The system alerts you if your glucose levels go beyond the normal range.

REAL-TIME MONITORING

You always know your current glucose level.

HISTORY AND PERSONALIZED REPORTS

All your data is saved and accessible to you and your doctor.

INTUITIVE ANALYTICS AND CHARTS

You see the trends and easily understand how food, sleep, and activity affect your body.

PERSONALIZED RECOMMENDATIONS

CGM Flystat goes beyond numbers: it tells you what to do next.

Recommendations driven by your data

Tips on nutrition, activity, and sleep

Risk alerts

ADVANTAGES OF CGM Flystat

CGM Flystat gives you:

- control without constant fingersticks;
- less anxiety;
- time saved;
- confidence in your choices;
- better quality of life.

ADVANTAGES OF
CGM Flystat
Technology that works for you, not one that adds complexity.

WHY CGM Flystat?

Why users choose **CGM Flystat**:

- Intuitive interface
- AI-powered virtual assistant
- High accuracy
- Ergonomic design
- Stable performance

TECHNOLOGY BUILT AROUND
PEOPLE, NOT THE OTHER WAY AROUND.

WHO IS IT FOR?

CGM Flystat is the right solution for different groups:

For special health conditions:
people with diabetes, pregnant women.

In times of growth and activity:
children, athletes.
