

CONTINUOUS GLUCOSE
MONITORING SYSTEM

CGM Flystat

REAL-TIME GLUCOSE
MONITORING FOR A CONFIDENT,
PEACEFUL, AND ACTIVE LIFE

USER PROBLEMS

CGM Flystat 

FRAGMENTARY DATA

Conventional glucometers only show individual measurements, so you don't see the full picture.

RARE MEASUREMENTS

Most people don't test their glucose levels as often as they should, which makes their control less effective.

HUMAN ERROR

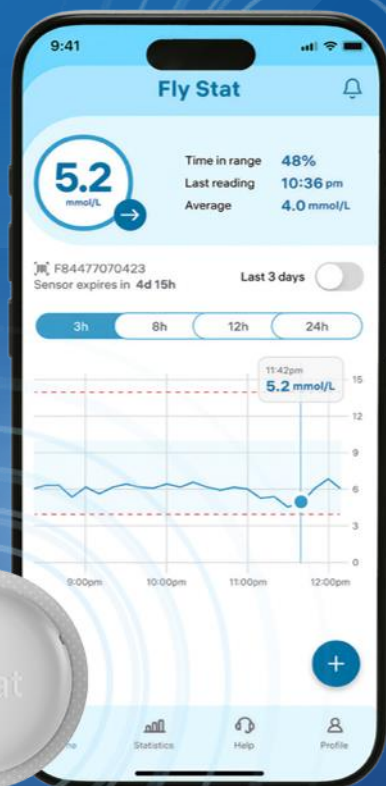

Forgetfulness, pain from fingersticks and fatigue from routine result in mistakes and risks.

NO PREDICTION

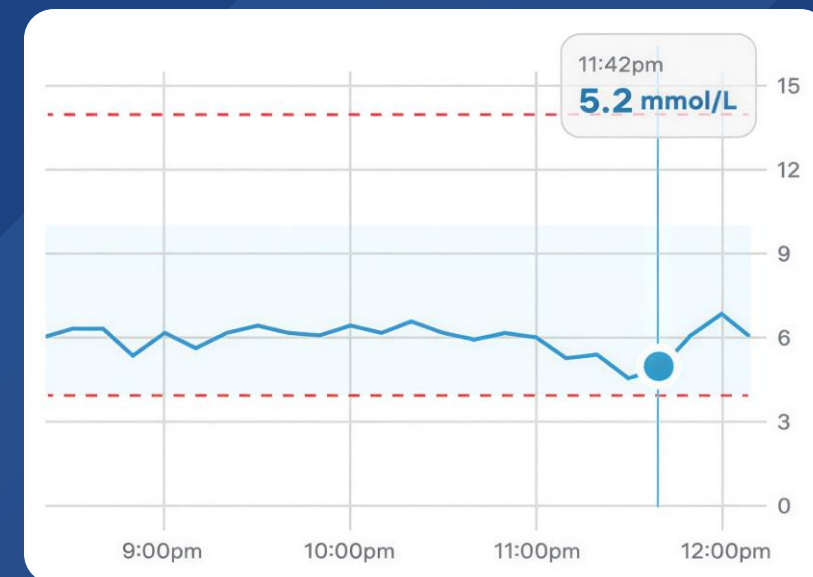

Conventional methods do not allow for early detection of dangerous changes and timely prevention of hypo- and hyperglycemia.

CGM Flystat is a new level of glucose control

The system works automatically and unnoticed by you:

- collecting data 24/7
- displaying glucose levels in real time
- alerting to risks
- helping to act in advance, not retrospectively

CGM Flystat integrates seamlessly into your life: without pain, unnecessary steps, or complicated settings.

MAIN FUNCTIONS

CGM Flystat 

Everything you need for control is in one interface:

REAL-TIME MONITORING

You always know what is happening with your glucose levels right now.

CLEAR ANALYTICS AND GRAPHS

You can see the dynamics and easily understand how your diet, sleep and physical activity affect the body.

PERSONALIZED RECOMMENDATIONS

CGM Flystat doesn't just show numbers, it tells you what to do.

SMART NOTIFICATIONS AND REMINDERS

The system warns if the indicators go beyond the normal range.

HISTORY AND PERSONALIZED REPORTS

All data is stored and accessible to you and your doctor.

ADVANTAGES OF CGM Flystat

CGM Flystat

With **CGM Flystat**, you get:

- control without constant fingersticks
- less anxiety
- saving time
- confidence in your decisions
- improving the quality of life

Technologies that work for you without any additional complications.

WHY CGM Flystat?

CGM Flystat

Why choose CGM Flystat:

- Intuitive interface
- AI-driven virtual assistant
- High precision
- Ergonomic design
- Stable operation

TECHNOLOGY
ADAPTS
TO PEOPLE,
